

ATC 101 SOCAL Controllers Perspective

Come join us to hear what ATC expects from the other side of the mic. Learn about the busiest TRACON in the world, SOCAL TRACON, and how you can navigate this complex airspace as safe as possible. Rob Reddeg, a Certified Professional Controller from SCT, will brief us on the airspace, best practices and current safety issues in and around LGB and the rest of SOCAL TRACON's airspace. With SOCAL TRACON working over 2.2 million operations in 2015, they recognize the importance of ensuring that the pilots and ATC are on the same page when it comes to expectations.

Directions: All Classes are held on the 3rd floor
Please arrive at least 15 minutes early to go through security and sign in.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
